

HAYA BARAKAT

WEB DEVELOPER

About me

I am a highly motivated web development student, with multimedia design background. I like building websites, web apps, and everything related. I also enjoy creating good user experiences. I'm always energetic and eager to learn new skills. When I do something, I like not only to finish it, but also to master it. School and life taught me that teamwork makes the dream work. People around me describe me as a good listener and constantly smiling.
